

INTRODUCING ONE OF THE MOST POWERFUL IMMUNE-NOURISHING, IMMUNE-BOOSTING IMMUNE-OPTIMIZING SUPPLEMENTS IN THE WORLD.

NO OTHER BRAND CAN COMPETE WITH SEACARE'S IMMUNE-BOOSTING BENEFITS

Different than every other supplement on the market today, SeaCare's proprietary formula delivers the most powerful immune-support in a sea cucumber-based supplement on the market. SeaCare is more potent, has higher absorption and zero toxins—something no other product can claim.

SeaCare's proprietary harvesting and combiging methods are a game changer.

Unlike other sea cucumber supplements in dehydrated powdery pill form which strips them of the nutrients that benefit the immune system, SeaCare follows a scientifically meticulous extraction processes to deliver only the rich nutrients and key nutritional minerals, amino acids and vitamins critical to nourishing the body's natural immunity so it can fight off the pathogens that compromise our health.

SeaCare is frozen fresh right at its source and delivered cold and slushy with all of its original active ingredients preserved so your immune system gets maximum nourishment it craves.

If a supplement could have super powers, we'd give SeaCare a cape.

SCIENTIFICALLY-PROVEN IMMUNE SUPPORT

ARM YOUR IMMUNE SYSTEM FROM THE INSIDE OUT

Think of SeaCare as food for your immune system—allowing your body to fight off the pathogens that compromise your health, so it can heal from the inside-out.

SeaCare delivers more Frondoside A than any other supplement.

For decades researchers have recognized the immuno-modulatory, anti-fungal and anti-tumor benefits of Frondoside A (a glycosylated triterpenoid found in warm-water sea cucumber). Frondoside A is known to improve a variety of health conditions, including a compromised immune system, arthritis, joint pain, heart health, liver and kidney function, Lyme disease, asthma, bone health for starters.

Sea cucumbers are loaded with glycine and arginine.

Glycine can stimulate production and release of the cell antibodies that remove foreign bodies. Arginine enhances the body's cell immunity by promoting the activation and proliferation of the white blood cells responsible for fighting pathogens and disease.

Sea Cucumber (bêche-de-mer)

Frondoside A: the active ingredient in SeaCare's warm-water sea cucumber, helps to support a healthy inflammatory response.

Marine Plants (sargassum)

Enhances absorption and ensures balance and effectiveness of SeaCare's marine ingredients.

Sea Urchin (echinus)

Vitamin A: Enhances the body's natural defense cells.

Vitamin C: Acts as an antioxidant, protecting cells from toxins, and encourages white cell production to promote a healthy immune system.

THE HIGHEST LEVELS IMMUNE-BOOSTING INGREDIENTS

SeaCare's secret formula is derived from proprietary complex harvesting and combining methods that produce one of the most powerful immune boosting supplements in the world.

SEACARE IS FOR EVERYONE EVEN YOUR PET

Just like their human counterparts, pets benefit from a robust immune system that allows them to fight off the pathogens that compromise their health too.

RESPONSIBLY HARVESTED

Seacare is harvested in Vanuatu, a small island in the South Pacific widely regarded as the best source for warm water sea cucumbers. We adhere to rigorous sustainability regulations designed to protect and preserve marine life and prevent over harvesting of the region's natural resources.

100% CUSTOMER SATISFACTION

Our commitment to you since 1981. If you aren't happy with SeaCare, we'd like to hear from you and we'll make it right. That's a promise. That's the SeaCare way.

GREAT FOR PETS TOO!
